

CENG-322 Deliverable 6

LIFE Environmental Solutions

Team Name: LIFE (*Light, Indoor air, Freshness, and Energy*)

Project Name: LIFE Environmental Solutions

Course: Ceng-322

Team Number: Group 11

Team Members: Mohamed Ali N01440760, Jonathan Akabuike n01510573, Farhan Habibzai N01610299

Project Description: LIFE is an indoor environmental monitoring system designed to enhance safety, health, and awareness in enclosed spaces such as warehouses, offices, and residential environments. The system detects human presence within an indoor space and continuously monitors air quality to identify potentially harmful conditions

You can edit this on the App pricing page up until you publish your app. Once you've published, you can't change a free app to paid.

☒ Free

☐ Paid

You'll get automatic protection

Declarations

Developer Program Policies

☒ Confirm app meets the Developer Program Policies

The application meets [Developer Program Policies](#). Please check out [these tips on how to create policy compliant app descriptions](#) to avoid some common reasons for app suspension. If your app or store listing is [eligible for advance notice](#) to the Google Play App Review team, [contact us](#) prior to publishing.

Play App Signing

☒ Accept the Play App Signing Terms of Service

To publish [Android App Bundles](#) on Google Play you need to accept the [Play App Signing Terms of Service](#). You will be able to choose your app signing key when creating a release. [Learn more](#)

US export laws

☒ Accept US export laws

I acknowledge that my software application may be subject to United States export laws, regardless of my location or nationality. I agree that I have complied with all such laws, including any requirements for software with encryption functions. I hereby certify that my application is authorized for export from the United States under these laws. [Learn more](#)

App access

To review your app, Google Play must be able to access all parts of it. If access to parts of your app is restricted, for example, because they require login credentials, you must provide instructions on how we can gain access.

Examples of restricted access include, but aren't limited to:

- usernames and passwords
- 2-step verification
- location-based access
- memberships and subscriptions
- any actions required to be carried out on another device

If we can't review your entire app, you may be prevented from releasing updates, or your app may be removed from Google Play.

Reviewers are unable to:

- create accounts or use their own existing accounts to access your app
- use free trials to access your app
- contact you for more information

[Read guidance](#)
[Take Play Academy course](#)

☐ All functionality in my app is available without any access restrictions

☒ All or some functionality in my app is restricted

App Access Credentials

Instructions provided: Username / phone number, password

Manage
Delete

Add instructions to help Google Play access the restricted parts of your app. You can add up to 5 instructions.

+ Add instructions

☒ Allow Android to use the credentials you provide for performance and app compatibility testing

Tests are used to improve app compatibility with different Android devices and versions

If you save, changes will be saved in Publishing overview, ready for you to send for review

1 Category2 Questionnaire3 Summary

Category

Email address

jonathanoluchi000@gmail.com

This will be used to contact you about your content ratings. It may be shared with rating authorities and IARC.

Category

☐ Game

The app is a game or betting app. Examples include: Candy Crush Saga, Temple Run, Mario Kart, The Sims, Angry Birds, casino games, interactive visual novels, management games, or daily fantasy sports.

☐ Social or Communication

The primary purpose of this app is to meet or communicate with people. Examples include Facebook, Twitter, Skype, and SMS.

☒ All Other App Types

Any app that isn't a game, social networking app, or communication app. Examples include entertainment products, consumer stores, news apps, lifestyle apps, streaming services, utilities, tools, emoji sets, fitness apps, magazines, and customizations.

Terms and conditions

☒ I agree to the [Terms of Use](#) as outlined by the International Age Rating Coalition (IARC).
Content ratings on Google Play are provided by the International Age Rating Coalition (IARC) and are designed to help developers communicate locally relevant content ratings to users.

Category Questionnaire Summary

All Other App Types

Downloaded App Completed

Does the app contain any ratings-relevant content (e.g., sex, violence, language) downloaded as part of the app package (code, assets)? [Learn more](#)

Yes No

User Content Sharing Completed

Does the app natively allow users to interact or exchange content with other users through voice communication, text, or sharing images or audio? [Learn more](#)

Yes No

Online Content Completed

Does the app feature or promote content that isn't part of the initial app download, but can be accessed from the app? Examples of this type of content are movies in the Netflix app, product listings in the Amazon Shopping app, songs in the Spotify app, generated AI content, or news articles in the New York Times app. [Learn more](#)

Yes No

Promotion or Sale of Age-Restricted Products or Activities Completed

Does the app focus on promoting or selling items or activities that are typically age-restricted such as cigarettes, alcohol, firearms, or gambling?

Quickly share your app now for initial quality checks

Before you've finished setting up your app, you can quickly distribute builds to your own device, or to a small group of your own trusted users. Builds are normally available to users within seconds of being added in Play Console. This is optional, and you'll still need to run a closed test before publishing to everyone in production.
